## HeatTrak Portable Snow Melting Mat for Snow and Ice Removal

### The HeatTrak Portable Snow Removal System

- No more shoveling
- No more snow blowing
- No more harsh chemicals
- And no more embedded systems

For a variety of applications:

- Wheelchair ramps
- Any area with heavy foot traffic:  
Wood, Metal, Concrete or Asphalt
- Loading docks
- Sidewalks
- Driveways
- Decks

Imagine your sidewalks and pathways continuously clear of snow and ice. Heavy-duty and durable, these heated mats are built to stand up to the harshest winter weather and leave a clear path for pedestrians and vehicles. Can be moved easily from one problem area to another and can be unrolled in the fall and picked up in the spring.

## Al and Deitz Kracker Enter into Semi-Retirement

Travel and more time in Florida are on the new agenda for Al and Deitz Kracker, who have been owners of Mor Electric Heating since 1984. Al, who first joined the company in 1978, will continue making outside sales calls locally, nationally, and internationally and spend more time working on specific research and development projects. Deitz, has been owner of Infrared Internationale since it opened in 1993 and also a Mor Electric employee for 18 years. She will continue editing *WHAT'S HOT* and *what's not* but will also be returning to her earlier career as a free lance writer. Mark Jackson and Jay Gardiner will be assuming the leadership roles of the company with Al and Deitz working more "behind the scenes". The best way to reach Al or Deitz during this time is to ask that a message be forwarded to them and they will return your call as soon as possible.
